WORK EXPERIENCE

ShopOS (AI Agents) | Senior Product Manager | June 2025 – Feb 2026 | Bangalore

AI Operating System for self improving e-commerce stores. AI Agents that help modern & retail businesses.

- Built and scaled the first agentic product suite (Enterprise Studio, Pro Creator) Photography Agent (LLMs + diffusion + tool-calling + brand memory), reducing creative costs by >95% (₹7/image vs ~\$12K shoots)
- Built **Loops**(beta), an **AI-powered experimentation platform (Simulate → Listen → Test)** → onboarded 10+ beta brands → enabled continuous optimization across creatives, ads, and PDPs
- Led Amazon Copilot - PDP generation using AI (images, A+ content, copy) → uncovered whitespace in catalog workflows → launched with Amazon-newsletter GTM → **scaled to ~\$50K run-rate**
- Built browser-based **marketing automation** for non-API marketplaces (Noon, Namshi), **built with [Oppttra](#) as a design partner** and deployed across a house of brands with 10+ companies

Teleport (acquired by [StampMyVisa](#)) | Founding Team – Product Lead | Jul 2022 – June 2025 | Bangalore

Teleport is a travel-tech platform simplifying visa applications across 50+ countries for consumers and travel businesses. Led the platform from MVP to scale – 100K+ users & ₹6Cr+ monthly revenue. Built 3 full product versions, hired cross-functional teams, and owned acquisition, engagement, retention, and data infrastructure.

- Built MVP in 2 weeks using no-code tools → validated idea with 250+ agents and early users → gave founders conviction to invest in full tech stack → led to hiring of full engineering & growth teams
- Cut ops time per visa application from 15 mins to 2 mins by automating internal workflows and designing CRM tools → enabled each agent to process 5x more applications → reduced cost per application by 70% → allowed ops headcount to stay flat while scaling to 10K+ monthly transactions
- Launched a **white-label solution for B2B travel brands ([Yatra](#), MMT, TravClan)** → opened new channels → added ₹60L/month in revenue → validated a new GTM and shifted focus to B2B expansion.
- Launched a **[semi-white-label platform for B2B agents](#)** → helped close the **visa application loop 50% faster** reducing manual ops and delays
- Owned entire data stack (Metabase, Mixpanel) → built dashboards for 3 teams → enabled faster decisions on funnel fixes, activation rates, cohort retention, and churn across B2B user segments

Tickertape (by smallcase) | Product Manager - Growth Focus | Aug 2021 – Dec 2022 | Bangalore - Remote

- **Built and scaled “Beat the Street” trading game** → **drove 10% of app traffic**, boosted feature usage by 15% → unlocked **gamification as a repeatable growth loop**
- Launched SEO-driven listicle pages → drove a 9% uplift in organic traffic → increased TOFU growth
- **Led product for Diwali Muhurat Trading campaign** → resulted in highest revenue day of the year → validated time-sensitive GTM as a high-performing motion.
- Led the discovery of an incentive-driven referral program (₹100 credit/Tickertape Pro access)

Board Infinity (EdTech Platform) | Product Manager | Jun 2019 – Jul 2021 | Mumbai

- Built and launched a full-stack **[Coaching Marketplace](#)** → increased MRR by **15%**. Built a **[Job Board](#)** for learners, companies, and the B2B team, which helped 200+ companies roll out 1,500+ offers
- Designed referral program → acquired 25K+ users, 8% conversion to paid, resulting in 22% revenue growth
- Shipped key internal tools including LMS, CRM, and reporting dashboards, became the backbone of the **[learning experience](#)**, used by 1,000+ coaches and 50,000+ learners
